

SUMMER SCHOOL ATTENDANCE

While it is recognized that absence from school is necessary under certain conditions, the brief duration of summer school makes regular attendance imperative.

Each summer school teacher will submit a daily attendance report to the summer school principal who will be responsible for maintaining all student attendance records.

No credit will be granted for a secondary school subject in grades 9-12 if a student is absent from more than three (3) class sessions, nor will the student be permitted to take the Regents Examination, if any.

Exceptions in individual cases will be considered only upon written appeal to the summer school principal.
