

ASSOCIATION MEMBERSHIP DUES

The Board of Education recognizes the benefits of the district's administrators' and supervisors' participation in appropriate professional associations.

In that regard, the Board authorizes payment by the school district of individual membership fees in appropriate professional associations provided that:

- The purposes and objectives of the association are concerned with either specific or general responsibilities that bear directly on the individual's position.
- Appropriate funds are available in the budget.

The Board of Education directs the Superintendent of Schools to evaluate and, if appropriate, authorize such requests.
